PROFILE

Go High Level Automation Specialist with more than one year of hands-on experience building end-to-end GHL systems for service businesses. Expert in complex workflow automation, CRM pipeline management, lead capture & nurturing sequences, email/SMS campaigns, funnel & landing page development, and AI-powered integrations using webhooks, APIs, Zapier, Make, and n8n. Delivered multiple complete automation systems that reduced manual follow-up by 40-50% and increased lead conversion by 25-35%. Proven ability to take a client requirement from concept to a fully operational, revenue generating GHL system independently and on deadline.

PROFESSIONAL EXPERIENCE

AI Automation & Go High Level Specialist

Buildberg | Jun 2026 – Present

- Built Go High Level CRM and automation systems for service businesses, covering lead capture, qualification, appointment booking, follow-ups, and review generation.
- Developed AI-powered Voice AI receptionist and automation solutions for inbound calls, lead qualification, customer information collection, and appointment scheduling.
- Integrated Go High Level with n8n, Make, Zapier, Twilio, webhooks, APIs, and third-party platforms to create end-to-end automated workflows.

Tech Stack: Go High Level, n8n, Make, Zapier, Twilio, Webhooks, REST APIs, Voice AI, OpenAI

Go High Level Automation Specialist

Camden Health System | May 2025 – May 2026

- Built complete Go High Level systems including CRM pipelines, forms, calendars, appointment booking, SMS/email automation, reminders, and follow-up workflows.
- Developed automated customer journeys for lead nurturing, appointment confirmations, no-show recovery, reactivation, and review generation.
- Performed workflow testing, troubleshooting, account audits, and optimization to reduce manual work and improve lead response and customer engagement.

Tech Stack: Go High Level, Twilio, Google Workspace, Google Sheets, Webhooks, Make, Zapier

PROJECTS

HVAC Lead-to-Review Automation System

- Built a 4-stage automated lead lifecycle covering lead capture, booking confirmation, estimate approval, and review requests.
- Implemented instant SMS booking links, eliminating manual callback delays.
- Developed conditional estimate follow-up workflows, reducing follow-up time by 60%.
- Automated nurture sequences that recovered 15 to 20% of non-responsive leads.

Tech Stack: Go High Level, Make, Twilio, OpenAI, Webhooks

Dental Clinic Patient Journey Automation

- Built a zero-manual-intervention patient journey covering form submission, appointment booking, confirmation, 24-hour reminder, 1-hour reminder, and review request.
- Implemented multi-stage reminder automation that reduced no-shows by 30 to 40%.
- Automated review requests, generating a 25 to 35% increase in online patient testimonials.

Tech Stack: Go High Level, Twilio, Google Sheets, Google Workspace, Webhooks

Fitness Coach Lead-to-Engagement Automation System

- Built an end-to-end automation system covering lead capture, qualification, appointment booking, SMS and email confirmations, reminders, and post-session review collection.
- Reduced lead leakage through automated lead management and follow-up processes.
- Achieved 80%+ appointment attendance through reminder automation.
- Reduced the sales cycle by 50%.

Tech Stack: Go High Level, Twilio, Webhooks, Google Sheets, Google Workspace

Voice AI Receptionist & Appointment Automation System

- Built an AI-powered Voice Receptionist for service-based businesses to handle inbound customer calls and FAQs.
- Automated customer information collection, lead qualification, and appointment scheduling.
- Integrated Voice AI with GoHighLevel CRM, contacts, calendars, and workflows.
- Automated follow-up processes to improve lead response and appointment conversion.
- Designed the system to reduce missed calls and improve customer communication.

Tech Stack: Go High Level, Voice AI, Conversational AI, CRM, Workflow Automation, Calendar Integration
